PROFESSIONAL SUMMARY

Results-driven UI Developer with 2+ years of experience specializing in React.js and modern frontend technologies. Proven track record of developing responsive web applications, implementing dynamic features, and collaborating with cross-functional teams in Agile environments. Expertise in creating user-centric interfaces with strong focus on performance optimization and code quality. Successfully delivered 10+ features ahead of deadlines while maintaining high standards of technical excellence.

TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Backend:** Node.js, Express.js
- **Frameworks / Libraries:** Redux, Bootstrap, Material-UI, jQuery, Axios
- **Databases:** MongoDB, PostgreSQL, Basic SQL
- **Tools:** Git, GitHub, GitLab, Webpack, Vite, Postman
- **Others:** JSON, Figma, Agile/Scrum, Netlify, Jest/React Testing Library, JWT, RESTful/Ajax APIs

PROFESSIONAL EXPERIENCE

DEFTeam Solutions Private Limited

UI Developer | Oct 2023 – Jun 2025

Hyderabad

- Developed reusable UI components and maintained clean code in **React.js** with **TypeScript** and **ES6**.
- Converted **designs and wireframes into responsive, high-quality code** across web-capable devices.
- Integrated **RESTful APIs** and optimized applications for performance using **Redux** and **lazy-loading techniques**.
- Supported end-to-end solutions from architecture to implementation and post-release maintenance.
- Actively collaborated in Agile ceremonies, contributed to **impactful client communication**, and resolved complex UI bugs.

KeyPoint Technologies

Bot Developer | Oct 2022 – Apr 2023

Hyderabad

- Developed conversational UIs with React.js to enhance customer experience through chatbot interfaces.
- Worked independently to deliver features aligned with business goals.

KEY PROJECTS

- **NEWWE (Employee Experience Platform)**

Duration: 1 Year 3 Months

Technologies: React.js, Java, Bootstrap

Responsibilities: Built user-facing components, optimized UX, enhanced scalability for hybrid workplace models.

- **PAMS (Performance Appraisal Management Software)**

Duration: 6 Months

Technologies: React.js, Material-UI, jQuery

Responsibilities: Developed internal tools for HR and QA, attendance management, and performance tracking.

- **Cerina-Studio (AI Chatbot Platform)**

Duration: 3 Months

Technologies: React.js, JavaScript, Postman

Responsibilities: Developed robust front-end components, contributed to platform growth with API integration.

- **Transflow-360 (Localization Product)**

Duration: 3 Months

Technologies: React.js, Bootstrap

Responsibilities: Developed UI modules contributing to seamless localization solutions for global clients.

- **Demart-Grocery Store (E-Commerce Application)**

Duration: 5 Months

Technologies: React.js, Node.js, Express.js, MongoDB, Material-UI

Responsibilities: Developed a full-stack e-commerce platform using **React.js**, **Redux**, deployed via **Netlify**, handled API integration and state management.

CORE COMPETENCIES

- Developed **user-facing, reusable components** and modern **SPAs** using **React.js**, **TypeScript**, **ES6+**.
- Translated **wireframes and Figma designs** into **responsive, performant web interfaces**.
- Integrated **APIs (RESTful/AJAX)** using **Axios** and ensured robust state management via **Redux**, **Context API**.
- Handled **client communication** effectively, providing status updates and technical insights.
- Followed **best practices for version control** (Git), **code optimization**, and **application performance improvements**.
- Implemented **JWT-based authorization mechanisms**.
- Automated UI testing with **Jest**, **React Testing Library**.
- Supported troubleshooting, debugging, and fixing production issues efficiently.

EDUCATION

Bachelor Degree in Electrical & Electronics Engineering

Talla Padmavathi College of Engineering - CGPA: 7.5 / 10

Jun 2018 – Dec 2021

CERTIFICATIONS / CONTINUOUS LEARNING

- **Advanced React.js (Hooks, Redux, Context API) – Udemy Certified**
- Regularly engage in project-based learning on **Netlify** / **Render** platforms.
- Automated UI testing with **Jest/React Testing Library**.
